

EVoline® T-Dock

schulte invented and made by
elektrotechnik Schulte Elektrotechnik,
Lüdenscheid, Germany

Member of  **Rat für Formgebung**
German Design Council

At home in the kitchen.

EVoline® T-Dock

The EVoline T-Dock is raised above the work surface by its solid stainless steel pillar. This gives clutter free space and creates a safe distance between power supply and potentially wet surfaces in the kitchen.

The power supply cable is routed through the stainless steel pillar which is also a high quality anti-theft device since it is firmly screwed beneath the surface.

Dimensions in inch

EVoline® T-Dock

Description	Picture	Specifications	Order Number
<p>EVoline T-Dock</p> <p>Aluminium housing in stainless steel optics, ALANOX®. For surface thickness up to 50 mm. Two sockets, VDE-compliant, 0°, 16 A, contact-protected.
