

EVoline® FrameDock

UL listed and tested to meet UL 962A with 1 – 8 socket outlets. Electrical codes vary by location. Please check with your electrician to verify that this unit meets your local code before installing.

A flexible modular system for various applications.

EVoline® FrameDock

EVoline FrameDock is a flush fitting system which can be installed horizontally or vertically - be it on a desk, a kitchen worktop, a wall, or a side of a piece of furniture. It can be mounted almost everywhere due to its low mounting depth of 51 mm (2 1/64") and installation from the top:

High quality design, customisable components and yet discreet.
Interchangeable modules for data and multimedia ensure unlimited flexibility for future requirements at the workspace.
